

Developer Communication Log

Team 10 - Software Testing Project 2026

Developer Contact: Rohan Riaz

Project: Restaurant Management System

Document Version	1.1
Date Range	16 April 2026 - 31 May 2026
Prepared By	Muhammad Faraz Ansari
Developer	Rohan Riaz (IBA 26)
Project	Restaurant Management System

Last Updated: May 31, 2026

Log Summary

Log ID	Date	Time	From	Topic	Outcome
DEV-001	16/04/2026	00:37	Faraz	Request for project repository	Repository received
DEV-002	16/04/2026	00:37-00:39	Faraz	Request for setup instructions	Setup documented
DEV-003	16/04/2026	00:39	Faraz	Request for SRS and test plan	Acknowledged
DEV-004	16/04/2026	21:29	Faraz	Follow-up for documents	Developer responded
DEV-005	16/04/2026	23:31	Rohan	SRS delivery	SRS received
DEV-006	16/04/2026	23:32	Rohan	Test plan status	Pending from teammate
DEV-007	17/04/2026	00:12	Rohan	Test plan delivery	Test plan received
DEV-008	20/04/2026	16:33-17:13	Faraz	Repository branch clarification	Confirmed using connected branch
DEV-009	07/05/2026	13:19-13:21	Rohan/Faraz	Viva preparation inquiry	Confirmed logs maintained
DEV-010	31/05/2026	18:19-18:23	Faraz	Admin credentials and staff role	Credentials provided; roles merged

Detailed Communication Log

DEV-001 & DEV-002: Initial Contact & Repository Access

Date	16 April 2026
Time	00:37 - 00:39
From	Faraz (Team 10 Test Lead)
To	Rohan Riaz (Developer)
Channel	WhatsApp
Topic	Request for project repository and setup instructions
Message Summary	Team 10 requested the project repository, setup guide, SRS, and test plan for testing assignment.
Developer Response	Provided GitHub link. Setup instructions: Pull from connected branch, frontend at root, backend folder contains README with seeding script, PostgreSQL required.
Action Taken	Repository cloned, environment setup initiated

DEV-003, DEV-004, DEV-005: SRS & Test Plan Request

Date	16-17 April 2026
Time	21:29 - 23:32
From	Faraz (Team 10)
To	Rohan Riaz (Developer)
Channel	WhatsApp
Topic	Follow-up for SRS and test plan documentation
Message Summary	Multiple follow-ups sent requesting SRS and test plan documents.
Developer Response	Okay will do. Sent SRS file. Test plan was lost on laptop, waiting for other team member to forward it.
Action Taken	SRS received and saved. Follow-up scheduled for test plan

DEV-007: Test Plan Received

Date	17 April 2026
Time	00:12
From	Rohan Riaz (Developer)
To	Faraz (Team 10)
Channel	WhatsApp
Topic	Test plan delivery
Message Summary	Developer forwarded the test plan document from another team member.
Action Taken	Test plan received and saved to project documentation

DEV-008: Repository Branch Clarification

Date	20 April 2026
Time	16:33 - 17:13
From	Faraz (Team 10)
To	Rohan Riaz (Developer)
Channel	WhatsApp
Topic	Confirmation of correct repository branch
Message Summary	Team confirmed they pulled from connected branch as instructed. One team member had issues, others successfully pulled.
Developer Response	Confirmed connected branch is correct.
Action Taken	All team members repulled from correct branch. Environment setup completed.

DEV-009: Viva Preparation Inquiry

Date	7 May 2026
Time	13:19 - 13:21
From	Rohan Riaz (Developer)
To	Faraz (Team 10)
Channel	WhatsApp
Topic	Test plan viva preparation
Message Summary	Developer asked about logs and viva questions.
Response	Faraz confirmed all logs were maintained properly.
Action Taken	No action needed.

DEV-010: Admin Credentials and Staff Role Clarification

Date	31 May 2026
Time	18:19 - 18:23
From	Faraz (Team 10)
To	Rohan Riaz (Developer)
Channel	WhatsApp
Topic	Admin login credentials and staff role clarification
Message Summary	Team was unable to login with admin credentials. Asked about staff account creation.
Developer Response	Admin credentials: admin@example.com / admin123. Staff and admin roles were merged in the final product (inconsistent with SRS). Admins can convert existing user accounts into staff accounts. Developer acknowledged this is an inconsistency to be marked as failure.
Action Taken	Admin login successful. Inconsistency documented in Bug Reports.

Documents Received Summary

Document	Status	Date Received
GitHub Repository Link	Received	16/04/2026
Setup Instructions	Received	16/04/2026
SRS (Software Requirements Specification)	Received	16/04/2026
Test Plan (Original Developer's)	Received	17/04/2026

Key Technical Information from Developer

Requirement	Details
Repository Branch	connected
Frontend Location	Root directory
Backend Location	Separate folder with README
Database	PostgreSQL (must be pre-installed)
Seeding	Script available in backend README
Admin Credentials	admin@example.com / admin123
Staff Role	Merged with admin (inconsistent with SRS)

Notes for Testing

- Developer confirmed staff and admin roles were merged - this is an inconsistency with SRS
- Admin can convert existing user accounts to staff accounts
- No request for bug fixes was made (testing only on delivered version)
- All communications documented for project transparency
